

Description

Lexan* SL2030V is a UV-stabilized, transparent, polycarbonate sheet. The grade is specifically developed for the eye protection industry. In addition to excellent optical performance, it offers outstanding impact resistance, good stiffness and strength and ease of processing. Typical applications are: motor helmet visors, industrial visors and goggles, sport goggles, police helmet visors and sunglasses.

Chemical Resistance

Lexan SL2030V sheet has sufficient resistance to most mineral oils, greases, aliphatic hydrocarbons and acids under low or moderate stress levels. In applications where it will come into contact with these or other aggressive chemicals, specific (application related) testing of the material is strongly recommended.
